.....  
**PROJECT DESCRIPTION**

Please include a detailed map of the project area and budget to summarize expenses.

12 Digit HUC: 170703061007 SWCD LRP Priority Ranking#

NRCS Practice Code: 442 NRCS Practice: Irrigation Pivot

Is this project Ag Water Quality Related? YES ODA Management Area: White River

1. Project Proposal – Please describe the resource concern, what will be done & who will do the work.

The proposed project will demonstrate and evaluate SharkTrack pivot tires on a 1300 foot 6 tower irrigation pivot. The tires are designed to prevent rutting. This pivot is subject to deep ruts and is difficult to harvest around. These tires are new to the market. Shark Track Ag has offered 2 sets of tires and shipping free of charge if Wamic Company agrees to measure ruts, before and after the installation of the Shark Track Wheels for 5 years. This offer was not contingent on purchasing the wheels on the other 4 towers. This cost share application includes the purchase of the additional wheels for the remaining 4 towers. the existing ruts will be covered with a V-type pivot track filler rented from a neighboring farmer. the ruts will then be seeded.

2. Describe how this project will address the resource concern or provide an overall benefit that this project will provide to the watershed.

This project will reduce concentrated erosion caused from pivot rutting and aid in harvest.

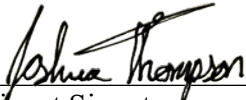

Estimated Total Cost: \$ 20,417.88

Amount Requested: \$ 7,500

(50%, UP TO \$7,500)

Project Start Date: April, 2024

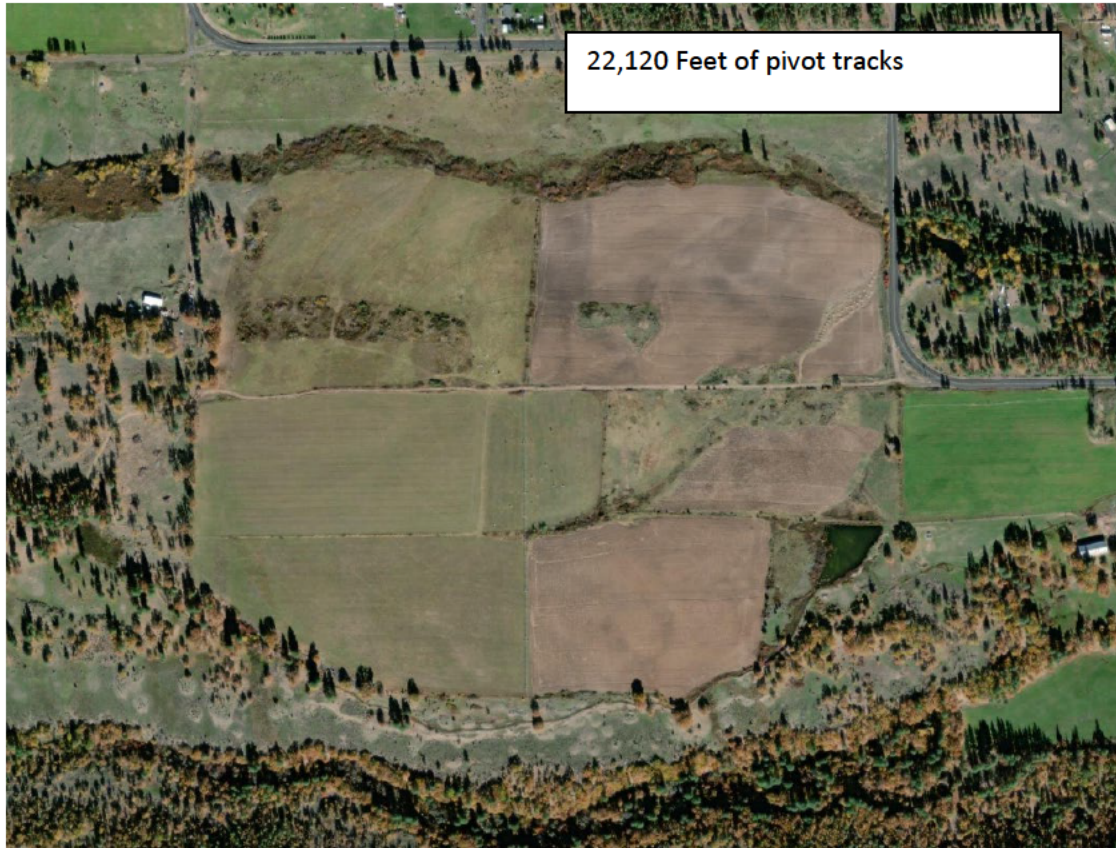

Completion Date: May, 2024 (reporting October 2028)
